SUMMARY

Morning Session

Presented by: Alice Smith, O.T.R., M.B.A.

Public Health Analyst, RTI International

Section N – Drug Regimen Review

Section N of the Minimum Data Set (MDS) has been updated to include items for the Drug Regimen Review Conducted with Follow-up for Identified Issues quality measure and Data collection began on October 1, 2018. Section N includes standardized patient assessment data elements and was implemented in response to the Improving Medicare Post-Acute Care Transformation) IMPACT Act.

Objectives:

- Describe the intent of the new Section N data elements
- Discuss the steps for assessment and coding the data elements
- Describe the Drug Regimen Review (DRR) Quality Measure (QM)
- Accurately code the Section N DRR scenarios

Afternoon Session

Presented by: Manisha Dass, MS, OTR/L

RTI International

Section GG – Functional Abilities and Goals

Section GG of the Minimum Data Set (MDS) has been updated and data collection began on October 1st, 2018. Section GG includes standardized patient assessment data elements and was implemented in response to the (Improving Medicare Post-Acute Care Transformation) IMPACT Act.

Objectives:

- Describe the intent of Section GG
- Define the assessment reference period for each data element
- Discuss the steps for assessment
- Accurately code Section GG scenarios

ABOUT RTI INTERNATIONAL

RTI International is one of the world's leading research institutes, dedicated to improving the human condition by turning knowledge into practice. Their staff of more than 3,700 provides research and technical services to governments and businesses in more than 75 countries in the areas of health and pharmaceuticals, education and training, surveys and statistics, advanced technology, international development, economic and social policy, energy and the environment, and laboratory testing and chemical analysis.

RTI PROJECT OVERVIEW

RTI develops, implements, and maintains cross-setting and setting-specific outcome and process quality measures (QMs) reflective of quality care for post-acute care (PAC) settings, and supportive of CMS quality and Quality Improvement Organization (QIO) program missions, including the Long-Term Care Hospital (LTCH) Quality Reporting Program (QRP), the Inpatient Rehabilitation Facility (IRF) QRP, the Skilled Nursing Facility (SNF) QRP and the Nursing Home Quality Initiative (NHQI). RTI develops, implements, and maintains measures to enable cross-setting QM comparisons, care coordination, and longitudinal outcome analyses. **RTI International recently presented a national train-the-trainer presentation concerning the MDS changes at the CMS Quality Conference in Baltimore, MD.**
