

Products & Technology to Help You Manage the Demands of COVID-19

I can help you find the ideal solutions for your community and maximize your budget. **Call 1-800-634-7328 or email me today!**

Boost staff efficiency, improve accuracy & collect vitals 40% faster

The **DS smart® EMR connectivity solution** allows you to upload readings from connected equipment, like vital signs monitors and scales, via Bluetooth for a flexible, faster approach to vitals collection that boosts your bottom line.

Fight pathogens, particles & odors with enhanced Indoor Air Quality (IAQ) Solutions

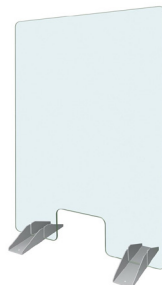

Droplet or aerosolized particles have taken center stage in today's fight against COVID-19. It is crucial to consider clinically effective solutions that may prevent airborne transmission in Senior Living communities.

Our experts can help you find the right IAQ solution for your community with a free consultation!

Thermal Temperature Screening Stations save you time and money while helping you support a high quality care environment. Get started quickly with complimentary remote system setup.

Critical care equipment and PPE are the on-hand supplies you need to seamlessly care for residents. We can also help you outfit **outdoor visitation areas** that support social distancing with products like easy-to-clean furniture, shields and UV disinfecting products.

Shop our full selection of COVID-19 products – including PPE, critical care equipment and more – at DirectSupply.net.
