 2. Special needs of dementia patients
 3. Infectious disease management
 4. Improve vaccine access and decrease hesitancy
 5. Behavioral Health needs
 6. Reduce health disparities & enhance social determinants of health for residents and staff

Free CDP (Certified Dementia Provider Certification) for 4 staff from each facility!

Limited to 4 Staff Per Facility

Two ECHO sessions for Your Team:

- One for nursing home administrators and nurses
- One for CNAs and support staff

Inclusive Participation

- 50 nursing homes in each state
- CNAs, residents, families, and caregivers

Peer Support

- Community of ongoing learning
- Participating staff become trainers for other staff

Builds on Existing Policies and Protocols

- Strengthens overall health outcomes while reducing risk

What is an ECHO?

ECHO is a knowledge-sharing model that brings together specialists from multiple focus areas for a robust, holistic approach. This learning framework applies across disciplines. Participants engage in an “all teach, all learn” virtual community in which they share support, guidance and feedback with their peers. The goal is improving collective understanding to disseminate and implement best practices across diverse disciplines.

Dates:

Weekly beginning January 7, 2022
Thursdays 10-11 am or 2-3 pm

Register here:
