TYPE OF OWNERSHIP (Please Check One)

____ Independent Owner: A nursing facility which shares common ownership, control or management with four or fewer other nursing facilities shall be considered an independently-owned provider. (If a company owns, controls, or manages five or fewer nursing facilities, regardless in which state those nursing facilities exist, each nursing facility would be considered an independently-owned nursing facility.)

____ National Multi-Facility Any nursing facility which shares common ownership, control or management of skilled nursing facilities in two or more states. (If a company owns, controls or manages six or more nursing facilities and at least one of those facilities operates in a state other than North Carolina, each nursing facility would be considered a national multi-facility provider.)

_____Multi-Facility: Any nursing facility which shares common ownership, control or management with five or more other facilities, whether such facilities are within or out of the state of North Carolina. (If a company owns, controls, or manages six or more nursing facilities, regardless in which state those nursing facilities exist, each nursing facility would be considered a multi-facility provider.)

____ Hospital-Affiliated A facility that shares common ownership, control or management with a hospital
